红绿室内单人近景校准
完整测试对话、Prompt 与图片档案

阶段收尾 / 冻结候选

三轮正式测试 • 九组 Prompt • 九张正式图 • 一张 non-canonical 预检图

归档日期：2026-07-20 (Asia/Taipei)

内部研究档案 • 本地直引 • 不进入公开仓库

0 | 阅读说明

先读结论

本次测试不以最后一轮为最终答案。用户肉眼复核后，Round 02-B 被保留为主候选，Round 02-C 被保留为辅助候选。

Round 03 A/B/C 全部失败：人物土红棕色轴丢失、强人工顶灯不足；A 与 C 尤其滑向自然侧光。失败轮完整保留，用于防止下一次再次越改越远。

阶段状态为“阶段收尾 / 冻结候选”。它表示本轮闭环完成，但不冒充已执行正式冻结手续。

阶段状态	阶段收尾 / 冻结候选（尚未宣称正式冻结）
最终主候选	Round 02-B 冷环境中保住土红棕人物色，厚重、高对比、主体结构清晰
最终辅助候选	Round 02-C 方向正确，作为原创安全转译的有效候选
失败回归轮	Round 03 A/B/C 红色轴丢失、人工顶灯不足；A/C 滑向自然侧光
正式样本	3 轮 × A/B/C=9 份 Prompt、9 张图
非正式样本	Round 01 另保留 1 张 non-canonical 预检图，不计入正式样本

1 | 最终候选置顶

主候选 / Round 02-B / 冷中带红、土红棕肤色、厚重高反差与恰当主体锋利度

辅助候选 / Round 02-C / 原创安全转译方向成立；人物与空间关系可继续继承

本次新增的可继承方法

冷环境与暖灯光可以同时成立：冷青绿属于空间与暗部，人物不能被同一层冷膜吞掉。

人物的“土红”来自妆造／肤色基底、红棕暗部反光和中调密度，不是全画面加红。

光源性质优先于“冷暖”形容词：必须硬锁强人工顶灯／顶前灯，并明确额头、头顶、鼻梁、肩部受光；禁止默认成自然侧窗光。

高整体对比与低皮肤微对比并不冲突：轮廓、衣领、眼神可清楚，皮肤表面仍需克制磨皮与柔和 roll-off。

Prompt 越长不等于越准。真正有效的是优先级、硬约束、分区和禁止项。

失败轮也是结论：Round 03 证明过度追求冷色与变体差异，会同时清除红色轴和人工顶灯。

2 | 来源与母图证据

测试母图 / 3840 × 1632 / SHA-256

1109be03dd59492da1cfdc9d5d7f80d37baf7cc3a4f01a0e22659d7432fc2ba0

JW-LTBF-03 / S0-03 | source-record

记录日期：2026-07-17 (Asia/Taipei)

状态：第一轮启动 / 来源链已核。

原片来源

- 正式母图：frames/让子弹飞/04_master_testset_14/03_huang_red_green_closeup.jpg
- 上游候选帧：frames/让子弹飞/02_candidate_frames_ab/JW_005_round_table_4530_a.jpg
- 中间入选帧：frames/让子弹飞/03_round1_selected_8/03_huang_red_green_closeup.jpg
- 三份 JPEG 均为 3840×1632 ，SHA-256 均为 1109be03dd59492da1cfdc9d5d7f80d37baf7cc3a4f01a0e22659d7432fc2ba0。
- 本地原片目录：frames/让子弹飞/00_source_videos/4K-120fps-bilingual/
- 可对应的两份原始长片：
 - frames/让子弹飞/00_source_videos/4K-120fps-bilingual/[让子弹飞][120 帧].Let.The.Bullets.Fly.2010.WEB-DL.4K.HEVC.AAC.国语.中文硬字[15.59G][MP4][无水印].mp4
 - frames/让子弹飞/00_source_videos/4K-120fps-bilingual/[让子弹飞][120 帧].Let.The.Bullets.Fly.2010.WEB-DL.4K.HEVC.AAC.川话.中文硬字[15.59G][MP4][无水印].mp4
- 两份语言版的视频画面一致；当前 5 秒片段的具体音轨版本仍待核，因此不提前写成国语版或川话版。

对应 5 秒片段

- frames/让子弹飞/01_scene_clips_5s/07_round_table_4530.mp4
- 规格： 3840×1632 ，120 fps，5.016667 秒。
- SHA-256：
3f8a8ffbd296472fc20d81e3195392e52c1313478bb49109537a33c41ce87c41。

- 母图与片段第一帧附近画面一致，已完成视觉与来源链核对。

原片时间码

00:45:30.000。已用 full-resolution framemd5 逐帧核验：5 秒片段开头连续三帧与两份原始长片在 00:45:30.000、00:45:30.008333、00:45:30.016667 的画面哈希逐一一致。该结论只确认视频帧定位；5 秒片段来自哪一条语言音轨仍待核，不伪写成 camera report 或场记记录。

角色信息

连续画面可确认：一名穿浅色立领服装、佩戴徽章的中年男性，是宴席谈判中的高位参与者。项目既有文件名使用 huang 标签；5 秒片段没有姓名字幕，因此真实角色姓名在档案事实层仍标记为待完整原片确认。A 内部研究版可按项目既有标签使用“黄四郎”作为研究语境，但生成脸必须原创。

剧情阶段

宴席谈判阶段。人物在礼物、夫人和接受条件之间进行带玩笑意味的试探；更完整的前后剧情仍待长片连续段落复核。

人物关系

主体处于主场或高位位置，面对画外同席谈判者。单人近景通过松弛后靠、向右视线、说话嘴型和伸出画外的手臂维持多人关系；具体人物称谓仍待完整原片确认。

台词前后

- 前文可辨：“相见恨晚”“姑娘，钻石一并送上！”
- 当前主体可辨：“唉，我带夫人来的，再收姑娘不方便。”
- 后文可辨：“那钻石送夫人。”“好！我先替她收着。”

- 当前台词依据本地 5 秒片段整理；前后台词依据长片相邻连续段落整理。正式逐字台本仍待原片字幕轨复核。

镜头叙事作用

把多人宴席谈判压缩为单人权力近景。镜头让人物以松弛姿态、调侃表情和画外视线掌握节奏，同时用左侧深红、中央暖木、右侧墨绿与烛火建立富裕、仪式化、带危险感的主场空间。背景不是装饰性配色，而是在景深中继续说明地点、身份与人物立场。

权利与证据边界

- 原片、片段与母图只用于本地内部视觉研究，不进入公开网站。
- 未确认信息统一写“待核”，不根据常识补造。
- A 可用于内部研究；B 不出现片名、导演名、演员名或角色真实姓名；C 必须转为原创人物、原创场景与原创叙事。

3 | 原片视觉分析

JW-LTBF-03 / S0-03 | analysis-notes

状态：第一轮分析完成。所有调色判断均为根据画面结果推测，不代表真实 Resolve 参数、节点、数值或制作记录。

一、空间

前景

画面左下至右下由人物浅米灰服装和伸向画面右侧的手臂占据，形成宽阔斜面，把视线从胸前引向画外谈判对象。

主体

单人坐姿主体位于中央略偏右，头部、面部和高立领是清晰度与亮度中心；身体向画面右后方松弛倾斜。

中景

左肩后出现雕花木椅立柱，人物背后是暖棕木质竖向隔断及一团柔化红色装饰，连接主体与室内陈设。

后景

左侧为深酒红色布面或屏风，右侧为墨绿墙面或织物面；最右有数枚暖黄烛火。红、木、绿、火光均保留大形，但小纹理退出焦点。

室内空间关系

人物位于宴席或私密谈判空间的高背座位上。空间由左红、中央暖木、右绿三块有物理位置的色域组成，并非整幅红绿滤镜；烛火提供更远一层实景纵深。

墙体 / 窗户 / 家具 / 装饰

可见高背木椅、木质隔断、深红软装或漆面、墨绿墙面或织物、模糊红色花形装饰及烛台；画面内没有可确认的窗户。

人物位置

人物头部位于画面中央略偏右，身体与手臂向右展开；画面左侧保留较大的深红负空间，右侧用绿色与烛火接住画外视线。

摄影机高度

接近坐姿人物的眼睛至肩部高度，整体为平视，未见明显俯拍或仰拍夸张。

景别

胸部以上的中近景，宽银幕 2.35:1 构图。

焦段倾向

根据画面结果推测：人物面部比例自然、背景受到中等偏强压缩，呈短长焦倾向。Prompt 可用约 70–85mm 等效作为视觉提示，但不能写成真实镜头型号或原片记录。

二、人物

身份层级

通过高背座椅、讲究的浅色立领服装、徽章、身体占位和松弛后靠建立高位、主场与从容控制感。

当下情绪

自信、轻松、略带调侃和试探，仍在谈判而非进入激烈冲突。

表情状态

嘴部处于说话中段，眉眼放松，眼角与面颊保留年龄纹理；视线明确指向画外右侧。

身体姿态

身体斜靠椅背，右肩和手臂向画面右侧展开。松弛程度本身成为权力表达，避免写成僵直正襟危坐。

与画外信息关系

画外右侧存在同席谈判者。人物的视线、说话嘴型、身体倾向和伸出画外的手臂共同延续多人关系，即使画面只显示一人。

三、摄影

构图

非对称宽银幕构图：左侧深红负空间、中央人物与暖木、右侧墨绿和烛火构成横向三段。人物头部压在红木交界附近，浅色服装形成明度锚点。

光线方向

根据画面结果推测：暖色柔光从人物前上方偏左进入，额头、面颊、鼻梁与浅色服装被托亮；右侧烛火只作为局部实景亮点，不承担全局染色。

光比

根据画面结果推测：主体与暗背景的光比明显，但面部阴影仍保留结构；黑位较深而未完全堵死，浅色服装高光没有硬性爆白。

景深

眼睛、主要面部平面、嘴部与前领口清晰；远耳、后肩和椅背略软；红绿背景、装饰与烛火进一步虚化。大色块和空间位置可读，小纹理、花瓣、木纹及灯具细节不可分辨。

空间压缩

中等偏强。背景视觉上靠近人物，但通过主体、椅背、后墙与烛火的连续失焦保留三层空间。

四、调色

以下所有条目只能依据画面结果推测，不代表真实 Resolve 参数、节点、数值或制作记录。

Exposure

根据画面结果推测：整体偏低调，主体脸部与浅色服装被单独托出，背景维持较低曝光。

Lift

根据画面结果推测：黑位较低，但深酒红、烟草棕和墨绿暗部仍保留色相，不是一片无色死黑。

Gamma

根据画面结果推测：暖色中间调密度较高，皮肤、暖木和浅色服装不灰、不漂。

Gain

根据画面结果推测：皮肤、服装与烛火高光采用柔和 roll-off，没有硬白、塑料反光或电子锐边。

Contrast

根据画面结果推测：主体与背景有明确明暗分离，局部反差较高，但面部明暗过渡保持柔和。

Pivot

根据画面结果推测：对比重心偏向较低中间调，背景被压住，主体面部和服装从暗室中抬出。

WB

根据画面结果推测：整体为偏暖中性白平衡，但没有把所有区域统一推成橙黄。

Tint

根据画面结果推测：肤色与木色带 red-brown、rose-brown 和少量 muted magenta；绿色被限制在右侧背景，不侵入人物。

暗部

根据画面结果推测：深酒红、烟草棕、墨绿和近中性黑并存。最深中性闭塞处可容纳极少 clean cyan-charcoal，但不能形成全局青膜。

中间调

根据画面结果推测：主要由肤色红棕、木色琥珀与服装暖灰米色构成，暖红承载的中间调权重大于冷色背景。

高光

根据画面结果推测：烛火为奶油黄，皮肤高光为 cream-peach，服装高光为暖象牙色；高光不进入粉紫或青白。

肤色区域

根据画面结果推测：额头、太阳穴、面颊、鼻翼、耳朵、嘴唇和下颌具有连续暖红、rose-brown 与少量 muted magenta-red；肤色不能青、灰或只在脸颊孤立加红。

浅色服装区域

根据画面结果推测：服装为暖 greige / 浅米灰，不是纯白、粉白或青白；大折面厚实，半影带克制棕灰。

背景区域

根据画面结果推测：左侧深酒红、中央琥珀暖木、右侧墨绿，各自对应实体区域；红绿不应被做成全局灯光或廉价互补色滤镜。

材质表现

根据画面结果推测：皮肤保留非对称年龄纹理；浅色服装呈厚实丝麻或绸质大折面；木材、布面与皮肤必须有独立触感，背景不靠污渍制造电影感。

颗粒

根据画面结果推测：仅需要极细、低强度、有机颗粒；不能使用随机颗粒覆盖生成脏点或提高假质感。

柔化

根据画面结果推测：面部高光和服装边缘有克制光学柔化，烛火带轻微 halation；禁止全局雾化、油画糊面、塑料皮肤和 portrait-mode 抠像边缘。

第 1 轮 | A / B / C 完整记录

JW-LTBF-03 / S0-03 | Round 01

状态：A/B/C 三图已评 / Round 01 未通过。

本轮用于建立第一组 A/B/C 基线。三个 Prompt 先同时写完，再分别执行三次独立 text-to-image。Janet 已完成肉眼评价；原图与三图的像素、光线、面部和历史继承关系已经复核，第一轮未通过。

当前文件

- prompt_A_internal.md
- prompt_B_descriptive.md
- prompt_C_safe.md
- JW-LTBF-03_A_r01.png
- JW-LTBF-03_B_r01.png
- JW-LTBF-03_C_r01.png
- generation-log.md
- feedback.md
- color-lighting-face-audit.md
- qa.md

当前资产

- Canonical Prompt: 3
- Canonical 图片: 3

- Janet 反馈：已收 / 未通过

第一轮只测试什么

- 锁定构图、人物姿态、红 / 木 / 绿背景位置、暖肤色、浅色服装、光线和三层可见景深。
- A / B / C 只测试语境转译层级，不把色彩强度、景深强度和人物姿态同时改成三套。
- A 可使用内部研究语境；B 删除专名；C 完全原创人物、空间与叙事。

生成边界

- 三次独立 brand-new text-to-image。
- 零图像输入；不传母图、候选帧、旧输出或其他参考图。
- 禁止 edit、recolor、image-to-image、face transfer、identity transfer。
- 三张图完成后已立即停止；反馈完成后仍不直接生成，先进入下一轮精简 Prompt。

Round 01-A | 内部原片研究版

原始文件：round-01/prompt_A_internal.md

JW-LTBF-03 / Round 01 / A | Internal

状态：Prompt 已完成 / 待独立生成。

用途：内部原片研究基线。允许使用片名、角色与剧情语境，但只研究镜头功能；人物脸、服装、房间和道具必须重新原创。零图像输入，不把母图作为 edit、recolor、image-to-image 或 identity transfer 输入。

本轮锁定

- 单人胸部以上中近景，人物中央略偏右并向画面右侧松弛后靠。
- 左侧深酒红、中央暖木、右侧墨绿与烛火的三段实体空间。
- 暖红棕肤色、暖 greige 浅色服装与局部 clean cyan-charcoal 最深暗部。
- 可见三层景深：脸与前领口清晰，椅背略软，红绿背景与烛火明显虚化但大形可读。
- 干净不等于空：保留能说明谈判空间、主场身份和画外关系的背景物。

Prompt

Use case: photorealistic-natural

Asset type: JW-LTBF-03 Round 01 A, independent internal visual-research baseline

Generate a brand-new 2.35:1 photorealistic cinematic still solely from this written specification. Use zero image input: no source frame, reference image, previous output, edit, recoloring, image-to-image process, face transfer, or identity transfer.

Internal research context: study the visual function of the round-table bargaining scene around 00:45:30 in *Let the Bullets Fly*, where Huang Silang speaks with relaxed authority to an off-screen guest. Use the narrative role only. Create a completely new anonymous middle-aged East Asian man whose facial structure, hairline, eyes, nose, mouth, ears, beard pattern, age marks, and body proportions do not resemble the actor, any celebrity, or the existing character portrait.

Show one seated high-status local power holder in a chest-up medium close shot. Place his head near the center-right of the wide frame. His torso reclines diagonally toward frame right; his right arm extends naturally out of frame. He turns his eyes and half-open speaking mouth toward an off-screen person on frame right. His expression is confident, amused, controlled, and mildly testing rather than angry. No second visible person.

Dress him in an original warm light-grey high-collar period jacket with a dark inner collar, broad heavy folds, subtle silk-linen sheen, and two small generic enamel pins. The garment must look expensive, dense, clean, and physically draped, not glowing white and not covered in tiny AI wrinkles. An ornate dark-wood chair finial is visible behind his left shoulder.

Build a meaningful three-zone interior background. On frame left, retain a broad deep burgundy-red fabric or lacquer-screen plane. Behind the subject, use warm walnut-brown vertical wood panels and one soft red floral mass. On frame right, place a dark bottle-green wall or textile panel and a small cluster of warm amber candle flames. These large shapes must explain a ceremonial private negotiation room. Clean does not mean empty: preserve the chair, wood divisions, red soft furnishing, green panel, and candle group, but eliminate random clutter, repeated ornaments, stains, speckles, mottled wall noise, and meaningless texture.

SELECTIVE FOCUS IS A PRIMARY REQUIREMENT. Use one optical focal plane on the nearer eye, central facial plane, speaking mouth, front collar, and upper chest. Keep natural facial structure and restrained pores without digital sharpening. The far ear and rear shoulder are slightly softer. The chair finial is visibly softer, while the red screen, wooden panels, green field, flowers, and candles are strongly but continuously defocused. Their large color and geometric masses remain readable, but seams, grain, petals, and small decoration are unresolved. Candle flames form soft organic bokeh. No deep focus, no multiple sharp planes, no focus stacking, no portrait-mode cutout, no hair halo, and no uniform Gaussian blur.

Optical-look cue only, not a verified production setting: compressed Super 35 spherical perspective, approximately 75mm, around T2.8, camera near seated eye level, subject around 2.6 meters, chair plane around 3 meters, rear wall around 5.5–7 meters. The visible three-tier focus result has priority over the numbers.

Use a broad warm key from upper front-left. Keep the face and light jacket clearly brighter than the room while retaining detail in the facial shadow side. Let the practical candles create only localized warm highlights.

The frame must read warm overall. Do not apply a global cyan, teal, orange, or red filter. Keep a small clean cyan-charcoal trace only in the deepest neutral occlusion shadows. Protect skin and the light jacket completely from cyan-green contamination. Put continuous muted magenta-red, rose-brown, and natural red-brown through the facial midtones, including forehead, temples, cheeks, nose, jaw, ears, neck, and visible hand. Keep highlights cream-peach. The left background is deep wine red, the central wood is amber-walnut, and the right background is dark bottle green rather than bright cyan. Warm red-bearing midtones must carry more perceptual weight than the cool background accent.

Render natural asymmetric facial anatomy, age lines, beard texture, cloth weight, wood structure, and restrained optical softness. Use only very fine low-strength organic film grain and slight candle halation. No subtitles, text,

logo, watermark, celebrity likeness, exact face recreation, plastic skin, wax skin, beauty retouching, oversharpening, dirty haze, random grain overlay, glossy advertising finish, neon red, neon green, or globally teal shadows.

Round 01-A / 正式测试图 / SHA-256 306985350b310667...

Round 01-B | 描述性复刻版

原始文件：round-01/prompt_B_descriptive.md

JW-LTBF-03 / Round 01 / B | Descriptive

状态：Prompt 已完成 / 待独立生成。

用途：描述性复刻基线。正文不使用电影名、导演名、演员名或角色真实姓名，只保留人物关系、空间、服装、光线、色彩结果、景深与摄影语言。零图像输入。

本轮锁定

- 与 A 保持同一构图、机位、人物姿态、背景三色位置、光线、景深和材质目标。
- 本轮不做色彩强度 bracket；A/B/C 的差别只在语境转译层级。
- 人脸必须为原创非公众人物，不复制任何现有角色或演员。

Prompt

Use case: photorealistic-natural

Asset type: JW-LTBF-03 Round 01 B, independent descriptive baseline

Generate a brand-new 2.35:1 photorealistic cinematic still solely from this written specification. Use zero image input: no source frame, reference image, previous output, edit, recoloring, image-to-image process, face transfer, or identity transfer. Do not use or imply any film title, director, actor, named character, public figure, recognizable film frame, or recognizable set.

Create an original anonymous middle-aged East Asian man who holds the social advantage in a private period negotiation. He is seated in a chest-up medium close shot, with his head near center-right. His torso reclines diagonally toward frame right and one arm continues out of frame. He looks and speaks toward an unseen counterpart on frame right. His relaxed brow, half-open mouth, slight eye-line shift, and restrained amusement communicate effortless control rather than aggression. No second visible person.

Give him a fully original non-celebrity face and a warm light-greige high-collar jacket with a dark inner collar, broad weighted folds, subtle silk-linen sheen, and two small abstract enamel pins. Place one carved dark-wood chair finial behind his left shoulder. The clothing is dense, maintained, clean, and naturally draped, without glowing white fabric or hundreds of tiny synthetic folds.

Construct a three-zone private interior: a broad deep burgundy-red fabric or lacquer plane on the left; warm walnut vertical wood panels and one soft red floral mass behind the subject; a dark bottle-green wall or textile panel and several amber candle flames on the right. The background must retain narrative information and social richness without random clutter. Keep the meaningful furniture and color blocks; remove only stains, repeated ornaments, speckles, mottled gradients, excess micro-detail, and incoherent objects.

SELECTIVE FOCUS IS A PRIMARY REQUIREMENT. Lock one focal plane to the nearer eye, main facial plane, speaking mouth, front collar, and upper chest. Keep the far ear and rear shoulder slightly soft. Render the chair finial clearly softer and the rear red, wood, green, floral, and candle planes strongly but progressively defocused. Large shapes and spatial positions remain readable; small texture and decoration do not. Produce soft organic candle bokeh and a visible foreground-to-background focus transition at normal viewing size. No deep focus, multiple sharp planes, focus stacking, artificial cutout, edge halo, or uniform blur.

Optical-look cue only: compressed short-telephoto perspective around 75mm, approximately T2.8, seated eye-level camera, subject near 2.6 meters, chair near 3 meters, rear wall near 5.5–7 meters. Prioritize the visible focus hierarchy over numeric metadata.

Light the subject with broad warm illumination from upper front-left. Keep the face and light jacket above the darker room, with soft highlight rolloff and readable facial shadows. Restrict candlelight to localized practical accents.

Make the image warm overall. Never wash the frame in cyan, teal, orange, or red. Use only a restrained clean cyan-charcoal trace in the deepest neutral occlusion shadows. Keep all skin and light fabric free of green-cyan contamination. Distribute muted magenta-red, rose-brown, and natural red-brown continuously across the complete facial midtones and visible hand. Use cream-peach skin highlights. Keep the left set color deep wine red, the central wood amber-walnut, and the right set color dark bottle green. Warm red-bearing midtones remain perceptually stronger than the cool accent.

Preserve authentic asymmetric skin, age lines, beard detail, weighted cloth folds, wood structure, very fine low-strength film grain, and restrained candle halation. No subtitles, text, logo, watermark, celebrity likeness, modern objects, plastic skin, waxiness, beauty retouching, tiny repetitive wrinkles, dirty haze, random grime, oversharpening, glossy commercial lighting, neon color, or global teal-orange grading.

Round 01-B / 正式测试图 / SHA-256 7342a8e66ac76aeb...

Round 01-C | 安全转译版

原始文件：round-01/prompt_C_safe.md

JW-LTBF-03 / Round 01 / C | Safe

状态：Prompt 已完成 / 待独立生成。

用途：安全转译基线。人物、地点、服装、道具和叙事全部原创，只保留画面中的权力表达、三段空间色、暖肤色、浅色服装、背景叙事与可见景深规律。零图像输入。

原创转译

- 人物：原创河港商会调停人，不是现有角色或公众人物。
- 场景：原创 1930 年代河港商会仲裁室，不复用可识别布景。
- 叙事：人物刚拒绝画外对手提出的过度让步，仍以轻松姿态掌握谈判。

Prompt

Use case: photorealistic-natural

Asset type: JW-LTBF-03 Round 01 C, independent safe-translation baseline

Generate a completely original 2.35:1 photorealistic cinematic still. Use zero image input and invent every person, garment, object, room, and story element from scratch. No source frame, reference image, previous output, edit, recoloring, image-to-image process, identity transfer, real person, existing fictional character, film title, director, actor, recognizable set, or recognizable scene.

Set the image in an invented 1930s river-port guild arbitration room. Show one newly invented 49-year-old East Asian trade mediator who has just declined an extravagant concession offered by an unseen rival. He remains socially dominant and faintly amused. Frame him alone from the chest up, seated with his head near center-right. His torso leans diagonally toward frame right, one arm extends beyond the edge, and his eyes and half-open speaking mouth address the unseen rival on frame right. His confidence comes from physical ease and controlled irony, not menace. No other person is visible.

Design a unique non-celebrity face with asymmetric features, a broad forehead, slightly tired eyes, a short individually shaped mustache and chin beard, and natural age lines. Dress him in an original pale ash-sand raw-silk guild coat with a dark inner band collar, broad weighted folds, and two small invented geometric seals. Use no known uniform, insignia, costume, or character design. Place a dark carved chair post behind one shoulder.

Build an original but narratively purposeful interior with three localized color zones: a deep oxblood woven wall hanging on frame left; smoked walnut dividers and a blurred vermilion ceremonial branch behind the mediator; a dark forest-green acoustic textile panel and several small amber oil lamps on frame right. The red and green belong to physical parts of the room, not to a global color filter. Preserve these background clues because they communicate ritual, wealth, and negotiation. Keep them coherent and maintained, without stripping the room bare and without adding random clutter, duplicate decorations, stains, speckles, or noisy texture.

SELECTIVE FOCUS IS A PRIMARY REQUIREMENT. Use a single natural optical focus plane on the nearer eye, main face plane, speaking lips, front collar, and upper torso. Let the far ear and rear shoulder soften slightly. The chair post is visibly softer; the oxblood hanging, walnut dividers, green panel, ceremonial branch, and oil lamps are more strongly and progressively defocused. Their large silhouettes, positions, and color masses stay readable while weaving, wood grain, leaf edges, and small hardware remain unresolved. The oil lamps form soft real-lens bokeh. The depth difference must remain obvious at normal viewing size. No deep focus, focus stacking, multiple sharp planes, cutout blur, hair halo, or uniform Gaussian blur.

Optical-look cue only: a compressed short-telephoto perspective near 75mm, approximately T2.8, camera at seated eye level, subject about 2.6 meters away, chair plane about 3 meters, rear architecture about 5.5–7 meters. The visible focus hierarchy is more important than these numbers.

Use broad warm key light from upper front-left. Keep the mediator's face and pale coat brighter than the darker room, with controlled cream highlights, natural facial shadow structure, and localized amber lamp points.

The full frame must remain warm and red-bearing. Add only a very small clean cyan-charcoal trace to the deepest neutral occlusion shadows. Do not allow cyan or green into skin, lips, ears, hands, or the pale coat. Give the complete facial midtones coherent muted magenta-red, rose-brown, and natural red-brown presence, with cream-peach highlights. Keep the coat warm ash-grey rather than pure white, yellow, pink, or green. Keep the left wall hanging deep oxblood, the wood warm walnut, and the right textile dark forest green. Warm skin and red-brown midtones must outweigh the cool green accent.

Render believable skin asymmetry, age lines, subtle pores, beard variation, dense raw-silk folds, maintained wood, very fine low-strength organic grain, and restrained lamp halation. No subtitles, letters, logo, watermark, public-figure likeness, existing costume, modern styling, plastic or wax skin, beauty-ad finish, oversharpening, random grime, dirty background, fog, heavy grain, neon red-green lighting, global cyan wash, or globally tinted shadows.

JW-LTBF-03 / Round 01 | feedback

状态：Janet 第一轮反馈已收 / Round 01 未通过。

A

色彩、光线与面部关系未达到母图。A 的景深和三段空间相对可用，但整体仍过暖、正面补光过平、面部土红棕暗面不足。

B

整体偏暖棕，冷青绿环境最弱；面部红轴、土红装造感、顶光结构与暗面反光均不足。

C

右侧绿色相对 A/B 更可见，但仍偏橄榄且过暗；人脸红轴不足，皮肤、衣料和背景微纹理过锐。

下一轮只修改什么

只修改五项：可见深青绿色环境、厚重土红 / 红棕基础妆面、暖顶光与脸内高反差、低皮肤微反差柔化、头眼口鼻与手臂统一朝 screen-right。锁定人物关系、构图、服装、座椅、烛火、三段空间与 A 的景深结构。详见 color-lighting-face-audit.md。

本轮 QA

JW-LTBF-03 / Round 01 | QA

状态：生成、归档与反馈 QA 完成 / Round 01 未通过。

- [x] 正式母图已确认。
- [x] source-record 已完成，待核项明确标注。
- [x] analysis-notes 四部分完整。

- [x] 调色条目全部使用“根据画面结果推测”。
- [x] A/B/C 在生成前已同时写完。
- [x] B 不含片名、导演名、演员名或角色真实姓名。
- [x] C 为原创人物、原创场景与原创叙事。
- [x] 三图为独立生成，不是原片改色或 edit 链。
- [x] 文件名、尺寸、SHA-256、生成记录与 canonical 状态一致。
- [x] Janet 肉眼反馈、原图对照、像素核对和 01/02 继承审计已归档。

本轮生成记录

JW-LTBF-03 / Round 01 | generation-log

状态：三张 canonical 图片已生成并完成评价 / Round 01 未通过。

公共生成条件

- 生成路径：built-in image_gen。
- 输入类型：纯文本；A/B/C 均为零图像输入。
- 未使用：母图、候选帧、前一张输出、edit、recolor、image-to-image、face transfer、identity transfer。
- 模型具体版本、seed 与服务端 request id：工具未暴露，明确记为缺失，不补造。

Canonical A

- Prompt：prompt_A_internal.md 的 Prompt 正文。
- 输出：JW-LTBF-03_A_r01.png
- 尺寸：1919 × 820，RGB PNG。

- SHA-256:
306985350b3106674ce42eab6e281bf2743eb162e755815d1b3e341e4ecf440c
- 状态: canonical / 待评。

Canonical B

- Prompt: prompt_B_descriptive.md 的 Prompt 正文。
- 输出: JW-LTBF-03_B_r01.png
- 尺寸: 1923 × 818, RGB PNG。
- SHA-256: 7342a8e66ac76aeb0e490c61092ff044acde151a892ad5c792a96ccee2110e6b
- 状态: canonical / 待评。

Canonical C

- Prompt: prompt_C_safe.md 的 Prompt 正文。
- 输出: JW-LTBF-03_C_r01.png
- 尺寸: 1919 × 820, RGB PNG。
- SHA-256: 20733a7ab9294baf02f89448e8dee864424aa6c1553274c7490f9e97c400a643
- 状态: canonical / 待评。

Non-canonical A preflight

- 输出: preflight/JW-LTBF-03_A_preflight_noncanonical.png
- 尺寸: 1923 × 817, RGB PNG。
- SHA-256:
c2e2a4b98892dcd9b95cc298c2b9b4757096c2a0b89f4ba240256bf8a6d7440a
- 原因: 调用时把 A 的内部片名 / 角色语境泛化, 未与已存档 A 正文完全对应。

- 处理：只保留审计证据，不计入三张 canonical，不供本轮 A/B/C 评价。

第 2 轮 | A / B / C 完整记录

JW-LTBF-03 / Round 02

状态：Janet 已评价 / B 为 JW-LTBF-03 主候选，C 为补充候选 / 冻结候选。

本轮承接 Round 01 已成立的构图、姿态、三段空间、浅色高领服装和三层景深，只修正五项：冷青绿环境、土红棕肤色、高位暖顶光、面部低微反差、统一朝画面右侧。

三张图已分别由三份 Prompt 独立文生图。零图像输入，没有使用母图或 Round 01 图片作 edit、recolor、image-to-image 或 identity transfer。

Janet 首次结论：A 过黄；B 的偏冷发红、土红棕人物、厚重对比与人物锋利度基本正确；C 的宏观对比与人物锋利度弱于 B。Round 03 失败后，Janet 在阶段收尾回看中明确确认“上一版的 B 和 C 都不错”。因此 B 为主候选，C 为较柔的补充候选；A 仍不通过。完整时序见 feedback.md。

Canonical 图片

- JW-LTBF-03_A_r02.png
- JW-LTBF-03_B_r02.png
- JW-LTBF-03_C_r02.png

Round 02-A | 内部原片研究版

原始文件：round-02/prompt_A_internal.md

JW-LTBF-03 / Round 02 / A | Internal

状态：Prompt 已完成 / 已独立生成。

用途：内部原片研究版。允许保留片名、角色功能与剧情语境，但只研究镜头规律；人物、脸、服装、房间和道具均重新原创。零图像输入。

本轮只改五项

1. 右侧环境由黑橄榄改成肉眼可见的低明度冷青绿。
2. 肤色由黄褐改成带装造感的土红棕；暗面仍有红棕色反光。
3. 改成暖色高位前侧顶光，减少正面填充，拉开脸内明暗。
4. 保留大结构和表情，降低毛孔、细纹与衣料的局部反差。
5. 头、鼻尖、瞳孔、说话方向和伸出手臂全部朝画面右侧。

Prompt

Use case: photorealistic-natural

Asset type: JW-LTBF-03 Round 02 A, independent internal visual-research test

Generate a new 2.35:1 photorealistic cinematic still from text only. Zero image input: do not use the source frame, a reference image, a previous result, recoloring, image-to-image, face transfer, or identity transfer.

Internal research context: study the visual function of Huang Silang speaking with relaxed authority during the round-table bargaining scene in *Let the Bullets Fly*. Use only that narrative function. The pictured man must be a newly designed anonymous middle-aged East Asian man with an original non-celebrity face, different facial structure, hairline, eyes, nose, mouth, ears and beard pattern from the actor and character.

One seated local power holder, chest-up medium close shot, head near center-right. He reclines toward screen-right and speaks to an unseen opponent there. HARD DIRECTION LOCK: head turn, nose, pupils, half-open speaking mouth and the arm extending out of frame all point toward screen-right; never look screen-left. His expression is amused, controlled and socially dominant. No second person.

He wears an original dusty warm-greige high-collar jacket with a dark inner collar, broad heavy folds and

restrained silk-linen sheen. It is not white, gold, pink or cyan. A carved dark-wood chair post sits just behind his left shoulder.

Keep the established three-zone room. Far left: only a narrow deep oxblood-red fabric or lacquer plane, not a huge red wall. Center: broad tobacco-walnut vertical wood and one soft red floral mass. Right: a broad, clearly visible low-luminance deep cyan-green / aged verdigris wall, plus a few warm amber candle points. The green field must read as green-cyan at first glance, not black, olive, brown or teal light cast. Its luminance is close to the dark red at left. These physical zones explain a private ceremonial negotiation room; clean means coherent and maintained, not empty.

The room reads cool cyan-green while the man remains warm. His complexion has a dense realistic ochre-earth-red / rose-brown makeup base across forehead, temples, cheeks, nose, ears, lips, jaw and neck; this is the skin base, not isolated blush. The shadowed side stays saturated earth-red / rose-brown instead of neutral black. The lit side rolls into lower-saturation cream-peach. Do not spread red over the whole room and do not contaminate skin or jacket with cyan-green.

Use one high warm key from upper front-left, with little frontal fill. Crown, forehead, nose bridge, upper cheek and top of shoulder are bright. Eye sockets, under the nose, lower cheek, jaw and neck fall into visibly deeper shadow, retaining a dim red-brown bounce. Keep high macro contrast between the bright face/jacket and dark room, but low local contrast on facial skin: soften pores and fine wrinkles with restrained in-camera diffusion while preserving bone structure, main expression lines, volume and natural asymmetry. No plastic beauty finish.

SELECTIVE FOCUS MUST BE VISIBLE. One focus plane covers the nearer eye, main face, speaking lips, front collar and upper chest. The far ear and rear shoulder are slightly softer; the chair post is clearly softer; the red, wood, floral, green and candle planes are strongly and progressively defocused. Large shapes and social-space cues remain readable, while petals, seams, grain and tiny decoration are unresolved. Candles form soft organic bokeh. Optical cue: compressed Super 35 spherical perspective near 75mm and T2.8 at seated eye height; the visible result matters more than the numbers.

Finish with soft highlight rolloff, restrained halation and very fine low-strength film grain. No text, subtitles, logo, watermark, celebrity likeness, recognizable face, deep focus, focus stacking, cutout blur, oversharpening, dirty haze, random stains, repeated ornaments, glossy commercial portrait lighting, orange-sepia wash or global teal-orange grade.

Round 02-A / 正式测试图 / SHA-256 746d5738b413c2a7...

Round 02-B | 描述性复刻版

原始文件: round-02/prompt_B_descriptive.md

JW-LTBF-03 / Round 02 / B | Descriptive

状态: Prompt 已完成 / 已独立生成。

用途: 描述性复刻版。正文不使用电影名、导演名、演员名或角色真实姓名,只保留人物关系、空间、服装、光线、调色结果、景深和摄影语言。零图像输入。

本轮只改五项

与 A 完全一致: 冷青绿环境、土红棕肤色、高位暖顶光、低皮肤微反差、统一朝画面右侧。A/B/C 不做随机参数冒充不同 Prompt。

Prompt

Use case: photorealistic-natural

Asset type: JW-LTBF-03 Round 02 B, independent descriptive test

Generate a new 2.35:1 photorealistic cinematic still from text only. Zero image input: no source frame, reference image, previous output, edit, recoloring, image-to-image, face transfer or identity transfer. Do not use or imply a film title, director, actor, named character, public figure, recognizable set or recognizable scene.

Show one newly invented anonymous middle-aged East Asian man who holds the social advantage in a private period negotiation. Chest-up medium close shot, head near center-right. He reclines toward screen-right and speaks to an unseen opponent there. HARD DIRECTION LOCK: head turn, nose, pupils, half-open speaking mouth and the arm extending out of frame all point toward screen-right; never look screen-left. His expression is amused, controlled and socially dominant. No second person.

Give him a fully original non-celebrity face and an original dusty warm-greige high-collar jacket with a dark inner collar, broad heavy folds and restrained silk-linen sheen. The jacket is not white, gold, pink or cyan. A carved dark-wood chair post sits just behind his left shoulder.

Build a coherent three-zone private interior. Far left: only a narrow deep oxblood-red fabric or lacquer plane, not a huge red wall. Center: broad tobacco-walnut vertical wood and one soft red floral mass. Right: a broad, clearly visible low-luminance deep cyan-green / aged verdigris wall with a few warm amber candle points. The green field

must read as green-cyan at first glance, not black, olive, brown or a teal light cast; its luminance is close to the dark red at left. Keep these physical zones because they explain ceremony, wealth and negotiation. The room is maintained and narratively rich, without random clutter.

The environment reads cool cyan-green while the man remains warm. Give his complete complexion a dense realistic ochre-earth-red / rose-brown makeup base across forehead, temples, cheeks, nose, ears, lips, jaw and neck; this is the underlying skin color, not isolated blush. The facial shadow side remains saturated earth-red / rose-brown instead of neutral black. The lit side rolls into lower-saturation cream-peach. Do not spread red across the whole room and do not contaminate skin or jacket with cyan-green.

Use one high warm key from upper front-left with little frontal fill. Crown, forehead, nose bridge, upper cheek and shoulder top are bright. Eye sockets, under the nose, lower cheek, jaw and neck fall into visibly deeper shadow with a dim red-brown bounce. Keep high macro contrast between bright subject and dark room, but low skin local contrast: soften pores and fine wrinkles through restrained optical diffusion while preserving facial volume, bone structure, main expression lines and natural asymmetry. No plastic beauty finish.

SELECTIVE FOCUS MUST BE VISIBLE. One focus plane holds the nearer eye, main face, speaking lips, front collar and upper chest. Far ear and rear shoulder are slightly softer; chair post clearly softer; red, wood, floral, green and candle planes strongly and progressively defocused. Large color blocks and spatial clues remain readable, but petals, seams, grain and small decoration are unresolved. Candles become soft organic bokeh. Optical cue: compressed short-telephoto perspective near 75mm and T2.8 at seated eye height; prioritize the visible focus hierarchy.

Use soft highlight rolloff, restrained halation and very fine low-strength film grain. No text, subtitles, logo, watermark, celebrity likeness, recognizable face, deep focus, focus stacking, artificial cutout blur, oversharpening, dirty haze, stains, duplicate ornaments, glossy commercial portrait lighting, orange-sepia wash or global teal-orange grading.

Round 02-B / 正式测试图 / SHA-256 2f98e409bbf759f3...

Round 02-C | 安全转译版

原始文件：round-02/prompt_C_safe.md

JW-LTBF-03 / Round 02 / C | Safe

状态：Prompt 已完成 / 已独立生成。

用途：安全转译版。人物、地点、服装、道具和叙事全部原创，仅保留权力表达、冷暖分离、背景叙事、光比、肤色与景深规律。零图像输入。

原创转译

- 人物：原创河港商会调停人，非公众人物、非现有角色。
- 场景：原创 1930 年代河港商会仲裁室。
- 叙事：人物刚拒绝画外对手提出的过度让步，仍以松弛姿态掌握谈判。

Prompt

Use case: photorealistic-natural

Asset type: JW-LTBF-03 Round 02 C, independent safe-translation test

Generate a completely original 2.35:1 photorealistic cinematic still from text only. Zero image input. Invent every person, face, garment, object, room and story element from scratch. No source frame, reference image, previous result, edit, recoloring, image-to-image, identity transfer, real person, existing fictional character, film title, director, actor, recognizable set or recognizable scene.

In an invented 1930s river-port guild arbitration room, show one newly designed 49-year-old East Asian trade mediator who has just rejected an unseen rival's excessive demand. Chest-up medium close shot, head near center-right. He reclines toward screen-right and answers the rival there with controlled amusement. HARD DIRECTION LOCK: head turn, nose, pupils, half-open speaking mouth and the arm extending out of frame all point toward screen-right; never look screen-left. No second person.

Design a unique anonymous non-celebrity face with its own asymmetric proportions and beard pattern. Dress him in an original dusty ash-sand high-collar guild coat with a dark inner collar, broad weighted folds and restrained raw-silk sheen. The coat is not white, gold, pink or cyan. Place one invented carved chair post just behind his left shoulder.

Create three physical color zones that carry the room's narrative. Far left: only a narrow deep oxblood woven hanging, not a huge red wall. Center: broad smoked tobacco-walnut dividers and one blurred vermilion ceremonial branch. Right: a broad, clearly visible low-luminance deep cyan-green / aged verdigris textile wall with a few warm amber oil-lamp points. The green field must read as green-cyan at first glance, not black, olive or brown, and its luminance is close to the dark red at left. Keep the room coherent, wealthy and maintained; do not erase meaningful background objects merely to make it clean.

The environmental base reads cool cyan-green while the mediator remains warm. His whole complexion has a dense realistic ochre-earth-red / rose-brown makeup base across forehead, temples, cheeks, nose, ears, lips, jaw and neck; it is an underlying skin color, not blush patches. The shadowed face remains saturated earth-red / rose-brown rather than neutral black. The lit face rolls into lower-saturation cream-peach. Red belongs mainly to skin and the narrow left hanging; cyan-green belongs to the right room plane and must not spill onto skin or coat.

Use one high warm key from upper front-left and little frontal fill. Crown, forehead, nose bridge, upper cheek and shoulder top are bright. Eye sockets, under the nose, lower cheek, jaw and neck fall into visibly deeper shadow, holding a dim red-brown bounce. Keep high macro contrast between the bright mediator and the dark room, but low local contrast on skin: restrained optical diffusion softens pores and fine wrinkles while facial volume, bone structure, principal expression lines and asymmetry remain intact. No plastic beauty finish.

SELECTIVE FOCUS MUST BE VISIBLE. Hold one natural focus plane on the nearer eye, main face, speaking lips, front collar and upper chest. Far ear and rear shoulder soften slightly; chair post is clearly softer; hanging, dividers, branch, verdigris wall and lamps are strongly and progressively defocused. Their large silhouettes and color masses stay readable while weaving, wood grain, leaf edges and small hardware disappear. Lamps form soft organic bokeh. Optical cue: compressed short-telephoto perspective near 75mm and T2.8 at seated eye height; prioritize the visible depth result.

Finish with soft highlight rolloff, restrained lamp halation and very fine low-strength film grain. No text, letters, logo, watermark, public-figure likeness, existing costume, deep focus, focus stacking, cutout blur, oversharpening, dirty haze, stains, repeated ornaments, glossy advertising finish, orange-sepia wash or global teal-orange grade.

Round 02-C / 正式测试图 / SHA-256 873d3bdf7fe52b00...

本轮 Janet 肉眼反馈

JW-LTBF-03 / Round 02 | Janet 肉眼反馈

状态：Janet 肉眼评价已收到 / B 为主候选，C 为阶段收尾补充候选。

Janet 评价

- A：整体过黄，暖黄色覆盖破坏了目标冷调，不作为下一轮色彩基线。
- B：色彩基本正确，呈现“偏冷发红”的关系；冷青绿环境、土红棕人物、厚重宏观对比与人物锋利度达到当前最佳平衡。人物从厚重色调里走出来，具有 Janet 所说的“土邦子感觉”。
- C：宏观对比偏弱，人物与背景分离不足，面部锋利度也低于 B。

下一轮决定

Round 03 以 B 的文字控制为唯一视觉基线。A 作为原 B Prompt 的复现控制；B 为去歧义后的优化描述版；C 为同一视觉核心的原创安全转译版。三张继续零图像输入、分别独立生成，用结果检验文字控制是否可重复，不把 Round 02 B 图片作为生成输入。

阶段收尾回看 | 2026-07-20

Janet 在 Round 03 三张均失败后明确补充：“上一版的 B 和 C 都不错其实。”因此保留时间顺序：

- 首次评价中，B 是唯一被选为下轮基线的版本，C 的对比和锋利度曾被指出弱于 B。
- 阶段收尾回看中，B 仍是主候选，C 获得补充肯定并进入次候选。
- A 的全局偏黄判定不变，不进入候选。

本轮 QA

JW-LTBF-03 / Round 02 | QA

状态：生成证据已核验 / Janet 视觉评价已归档。

核验项：

- [x] A/B/C 均为独立 text-to-image。
- [x] 三张图没有图像输入。
- [x] 文件像素尺寸与 SHA-256 已写入 generation-log.md。
- [x] 三张 SHA-256 不相同。
- [x] B 正文无具体电影名、导演名、演员名和角色真实姓名。
- [x] C 人物、地点、服装、道具与叙事均为原创转译。
- [x] Round 01 文件没有被覆盖。
- [x] 三张人物的头、瞳孔、说话方向与伸出手臂均朝画面右侧。
- [x] 三张右侧均出现肉眼可见的低明度青绿色场。
- [x] B 的偏冷发红、土红棕人物、厚重对比与人物锋利度获 Janet 肯定。

- [] A 未通过：全局偏黄。
- [x] C 的首次评价仍保留“对比与锋利度弱于 B”；Janet 在阶段收尾回看时又明确确认 B/C 都不错，因此 C 进入补充候选。
- [x] Round 02 B 为主候选，C 为次候选；整个 JW-LTBF-03 仍只写“冻结候选”，不写正式冻结。

本轮生成记录

JW-LTBF-03 / Round 02 | generation-log

状态：A/B/C 独立生成完成 / 待 Janet 肉眼评价。

- 生成方式：built-in imagegen / text-to-image
- 图像输入：0
- 母图输入：否
- Round 01 图片输入：否
- A/B/C：三份 Prompt，三次独立生成
- 生成日期：2026-07-18
- 模型：工具未公开
- seed：工具未公开
- request id：工具未公开

版本	Canonical 文件	像素尺寸	SHA-256
A	JW-LTBF-03_A_r02.png	1919 × 820	746d5738b413c2a768d79317b7ab6509b79922483edabc2030ee0d2791cc9aef
B	JW-LTBF-03_B_r02.png	1919 × 820	2f98e409bbf759f3dfaa852bb2d90f7a58b5508cfa80bc760b99f7aa5b62af1d

版本	Canonical 文件	像素尺寸	SHA-256
C	JW-LTBF-03_C_r02.png	1914 × 822	873d3bdf7fe52b0054bc8d6166575ca79635cf9ec06e7caa97b718a46b5df402

三张 SHA-256 均不相同。工具输出先保存在 Codex 本地生成缓存，再原样复制为上述 canonical 文件；归档后没有二次调色、修图或重编码。

第 3 轮 | A / B / C 完整记录

JW-LTBF-03 / Round 03

状态：A/B/C 已评价 / 三张全部未通过 / 作为重复性失败证据保留。

本轮不是继续随意调色，而是验证 Round 02-B 的文字控制是否可重复。A、B、C 共用逐字相同的 Visual Core，只改变研究语境外壳：Internal / Descriptive / Safe。

共同锁定：冷而发红的色彩关系、土红棕人物、冷青绿环境、firm black point、厚重宏观对比、脸部中间调分离，以及落在眼睛、鼻梁、唇线、胡须、下颌和领口的自然锋利度。

三张图已分别独立 text-to-image。零图像输入，没有把正式母图或 Round 02-B 图片用作 reference、edit、recolor、image-to-image 或 identity transfer。

Canonical 图片

- JW-LTBF-03_A_r03.png
- JW-LTBF-03_B_r03.png
- JW-LTBF-03_C_r03.png

三次调用均直接读取各自 Markdown 文件中 ## Prompt 后的正文。三版 Visual Core 的 SHA-256 相同，证明展示文档和实际调用使用的是同一套视觉核心。

Janet 最终判定：三版都丢失了人物红色权重，强顶灯 / 室内灯光明显不足；A 和 C 还出现了自然侧光感。因此“Prompt 调用一致”的技术 QA 通过，但“视觉结果可重复”的实验假设不通过。最终回退保留 Round 02 B/C，详见 feedback.md 与 final-feedback.md。

Round 03-A | 内部原片研究版

原始文件：round-03/prompt_A_internal.md

JW-LTBF-03 / Round 03 / A | Internal

状态：Prompt 已完成 / 已从本文件正文独立生成。

用途：内部研究语境版。只用原片语境说明人物在镜头中的权力功能，不复制演员、角色脸、服装或布景。视觉核心与 B、C 逐字相同。

Prompt

Use case: photorealistic-natural

Asset type: JW-LTBF-03 Round 03 A, internal-context repeatability test

Generate a brand-new 2.35:1 photorealistic cinematic still from text only. Zero image input: no source frame, reference image, previous output, edit, recoloring, image-to-image, face transfer or identity transfer.

Internal research context: study only the visual function of the relaxed local power holder speaking during the round-table bargaining scene in *Let the Bullets Fly*. Do not depict Huang Silang, the actor, or the existing character portrait. Create a newly designed anonymous middle-aged East Asian man with a fully original non-celebrity face, hairline, eyes, nose, mouth, ears, beard pattern and body proportions.

VISUAL CORE — APPLY LITERALLY:

Tight chest-up framing in a wide 2.35:1 frame, camera at seated eye height. The man sits center-right, reclines toward screen-right and speaks to an unseen opponent there. His head turn, nose, pupils, half-open speaking mouth and arm extending out of frame all point screen-right. His manner is amused, controlled and socially dominant. No second person.

He wears a cool neutral stone-greige high-collar jacket with a dark inner collar, broad weighted folds and restrained silk-linen sheen. The cloth remains gray-beige under the key light: never yellow, gold, champagne, pink

or cyan. A carved dark-wood chair post is just behind his left shoulder.

The physical room has three coherent zones: a narrow deep oxblood plane at far left; broad tobacco-walnut vertical wood and one soft dark-red floral mass at center; a broad, clearly visible low-luminance deep cyan-green / aged-verdigris field at right with only a few small amber candle points. The right field reads green-cyan, not black, olive or brown. Keep meaningful furniture and spatial divisions; no empty studio backdrop and no random clutter.

FINAL COLOR BIAS: the finished frame is cool, dense and blue-green; warm light is localized to the face and never turns the frame amber or yellow. Color priority is: cool cyan-green room, iron-red face, neutral stone-greige jacket, then tiny amber practicals. The entire complexion carries a muted iron-oxide earth-red / weathered rose-brown base, not isolated blush and not orange skin. Facial shadows retain saturated red-brown bounce. Skin highlights are neutral cream with only a trace of muted peach, never yellow or amber. Cyan-green does not contaminate skin or jacket.

Use one high warm key from upper front-left with little frontal fill. Crown, forehead, nose bridge, upper cheek and shoulder top catch light. Keep firm black anchors in the eye sockets, beneath the nose, under the jaw and inside the collar. High macro contrast, firm black point and strong facial midtone separation; low local contrast only at pore scale. The face, not the jacket or lamps, is the main contrast center.

Critical focus and highest natural acutance sit on the nearer eye, iris edge, nose ridge, speaking lips, moustache, jawline and front collar edge. Diffusion affects only pores, fine wrinkles and the brightest highlight bloom; it must not soften eyes, facial contours, moustache, lips or collar edges. Natural optical sharpness without digital edge halos.

Use one optical focus plane across the nearer eye, main face, mouth and front collar. The far ear and rear shoulder are slightly softer; chair post softer; rear red, wood, floral, cyan-green and candle planes progressively defocused, with large narrative shapes still readable and small texture unresolved. Compressed short-telephoto perspective near 75mm and T2.8 is an optical cue; the visible focus hierarchy has priority.

Finish with soft rolloff only in the brightest skin highlights, restrained candle halation and very fine low-strength film grain. No text, subtitles, logo, watermark, celebrity likeness, recognizable face, deep focus, focus stacking, cutout blur, matte-faded blacks, dirty haze, stains, repeated ornaments, glossy commercial portrait lighting, orange-sepia wash or global teal-orange grading.

Round 03-B | 描述性复刻版

原始文件: round-03/prompt_B_descriptive.md

JW-LTBF-03 / Round 03 / B | Descriptive

状态: Prompt 已完成 / 已从本文件正文独立生成。

用途: Round 02-B 的优化描述版。不使用电影名、导演名、演员名或角色真实姓名。视觉核心与 A、C 逐字相同。

Prompt

Use case: photorealistic-natural

Asset type: JW-LTBF-03 Round 03 B, optimized descriptive repeatability test

Generate a brand-new 2.35:1 photorealistic cinematic still from text only. Zero image input: no source frame, reference image, previous output, edit, recoloring, image-to-image, face transfer or identity transfer. Do not use or imply any film title, director, actor, named character, public figure, recognizable set or recognizable scene.

Show a newly designed anonymous middle-aged East Asian man who holds the social advantage in a private period negotiation. Give him a fully original non-celebrity face, hairline, eyes, nose, mouth, ears, beard pattern and body proportions.

VISUAL CORE — APPLY LITERALLY:

Tight chest-up framing in a wide 2.35:1 frame, camera at seated eye height. The man sits center-right, reclines toward screen-right and speaks to an unseen opponent there. His head turn, nose, pupils, half-open speaking mouth and arm extending out of frame all point screen-right. His manner is amused, controlled and socially dominant. No second person.

He wears a cool neutral stone-greige high-collar jacket with a dark inner collar, broad weighted folds and restrained silk-linen sheen. The cloth remains gray-beige under the key light: never yellow, gold, champagne, pink or cyan. A carved dark-wood chair post is just behind his left shoulder.

The physical room has three coherent zones: a narrow deep oxblood plane at far left; broad tobacco-walnut vertical wood and one soft dark-red floral mass at center; a broad, clearly visible low-luminance deep cyan-green / aged-verdigris field at right with only a few small amber candle points. The right field reads green-cyan, not black, olive or brown. Keep meaningful furniture and spatial divisions; no empty studio backdrop and no random clutter.

FINAL COLOR BIAS: the finished frame is cool, dense and blue-green; warm light is localized to the face and never turns the frame amber or yellow. Color priority is: cool cyan-green room, iron-red face, neutral stone-grey jacket, then tiny amber practicals. The entire complexion carries a muted iron-oxide earth-red / weathered rose-brown base, not isolated blush and not orange skin. Facial shadows retain saturated red-brown bounce. Skin highlights are neutral cream with only a trace of muted peach, never yellow or amber. Cyan-green does not contaminate skin or jacket.

Use one high warm key from upper front-left with little frontal fill. Crown, forehead, nose bridge, upper cheek and shoulder top catch light. Keep firm black anchors in the eye sockets, beneath the nose, under the jaw and inside the collar. High macro contrast, firm black point and strong facial midtone separation; low local contrast only at pore scale. The face, not the jacket or lamps, is the main contrast center.

Critical focus and highest natural acutance sit on the nearer eye, iris edge, nose ridge, speaking lips, moustache, jawline and front collar edge. Diffusion affects only pores, fine wrinkles and the brightest highlight bloom; it must not soften eyes, facial contours, moustache, lips or collar edges. Natural optical sharpness without digital edge halos.

Use one optical focus plane across the nearer eye, main face, mouth and front collar. The far ear and rear shoulder are slightly softer; chair post softer; rear red, wood, floral, cyan-green and candle planes progressively defocused, with large narrative shapes still readable and small texture unresolved. Compressed short-telephoto perspective near 75mm and T2.8 is an optical cue; the visible focus hierarchy has priority.

Finish with soft rolloff only in the brightest skin highlights, restrained candle halation and very fine low-strength film grain. No text, subtitles, logo, watermark, celebrity likeness, recognizable face, deep focus, focus stacking, cutout blur, matte-faded blacks, dirty haze, stains, repeated ornaments, glossy commercial portrait lighting, orange-sepia wash or global teal-orange grading.

Round 03-B / 正式测试图 / SHA-256 217d37c64b8e7338...

Round 03-C | 安全转译版

原始文件: round-03/prompt_C_safe.md

JW-LTBF-03 / Round 03 / C | Safe

状态: Prompt 已完成 / 已从本文件正文独立生成。

用途: 原创安全转译版。人物、地点和叙事原创, 不增加会改变灯具、空间或色彩的背景设定。视觉核心与 A、B 逐字相同。

Prompt

Use case: photorealistic-natural

Asset type: JW-LTBF-03 Round 03 C, original safe repeatability test

Generate a completely original 2.35:1 photorealistic cinematic still from text only. Zero image input. Invent the person, face, garment, room and story from scratch. No source frame, reference image, previous output, edit, recoloring, image-to-image, identity transfer, real person, existing fictional character, film title, director, actor, recognizable set or recognizable scene.

Show a newly invented middle-aged East Asian provincial mediator who has calmly rejected an unseen rival's excessive demand. Give him a unique anonymous non-celebrity face, hairline, eyes, nose, mouth, ears, beard pattern and body proportions. Do not add any story-specific prop beyond the visual core below.

VISUAL CORE — APPLY LITERALLY:

Tight chest-up framing in a wide 2.35:1 frame, camera at seated eye height. The man sits center-right, reclines toward screen-right and speaks to an unseen opponent there. His head turn, nose, pupils, half-open speaking mouth and arm extending out of frame all point screen-right. His manner is amused, controlled and socially dominant. No second person.

He wears a cool neutral stone-greige high-collar jacket with a dark inner collar, broad weighted folds and restrained silk-linen sheen. The cloth remains gray-beige under the key light: never yellow, gold, champagne, pink or cyan. A carved dark-wood chair post is just behind his left shoulder.

The physical room has three coherent zones: a narrow deep oxblood plane at far left; broad tobacco-walnut vertical wood and one soft dark-red floral mass at center; a broad, clearly visible low-luminance deep cyan-green /

aged-verdigris field at right with only a few small amber candle points. The right field reads green-cyan, not black, olive or brown. Keep meaningful furniture and spatial divisions; no empty studio backdrop and no random clutter.

FINAL COLOR BIAS: the finished frame is cool, dense and blue-green; warm light is localized to the face and never turns the frame amber or yellow. Color priority is: cool cyan-green room, iron-red face, neutral stone-grey jacket, then tiny amber practicals. The entire complexion carries a muted iron-oxide earth-red / weathered rose-brown base, not isolated blush and not orange skin. Facial shadows retain saturated red-brown bounce. Skin highlights are neutral cream with only a trace of muted peach, never yellow or amber. Cyan-green does not contaminate skin or jacket.

Use one high warm key from upper front-left with little frontal fill. Crown, forehead, nose bridge, upper cheek and shoulder top catch light. Keep firm black anchors in the eye sockets, beneath the nose, under the jaw and inside the collar. High macro contrast, firm black point and strong facial midtone separation; low local contrast only at pore scale. The face, not the jacket or lamps, is the main contrast center.

Critical focus and highest natural acutance sit on the nearer eye, iris edge, nose ridge, speaking lips, moustache, jawline and front collar edge. Diffusion affects only pores, fine wrinkles and the brightest highlight bloom; it must not soften eyes, facial contours, moustache, lips or collar edges. Natural optical sharpness without digital edge halos.

Use one optical focus plane across the nearer eye, main face, mouth and front collar. The far ear and rear shoulder are slightly softer; chair post softer; rear red, wood, floral, cyan-green and candle planes progressively defocused, with large narrative shapes still readable and small texture unresolved. Compressed short-telephoto perspective near 75mm and T2.8 is an optical cue; the visible focus hierarchy has priority.

Finish with soft rolloff only in the brightest skin highlights, restrained candle halation and very fine low-strength film grain. No text, subtitles, logo, watermark, celebrity likeness, recognizable face, deep focus, focus stacking, cutout blur, matte-faded blacks, dirty haze, stains, repeated ornaments, glossy commercial portrait lighting, orange-sepia wash or global teal-orange grading.

Round 03-C / 正式测试图 / SHA-256 326b441f73474d19...

本轮 Janet 肉眼反馈

JW-LTBF-03 / Round 03 | Janet 肉眼反馈

状态：Janet 已评价 / A、B、C 全部未通过 / 本测试阶段收尾。

Janet 原话

不好了，这次三个都不对了，那个红色丢了，光也明显不足，参考图里的光是顶光强光，灯光，A 和 C 很像自然光从侧面打在 person 身上。上一版的 B 和 C 都不错其实，这个可以收尾了。

本轮判定

- A：失去人物面部的土红棕色轴；光源被误执行为自然侧光，没有强顶灯对额头、鼻梁、上脸颊和肩部的集中塑形。
- B：同样没有稳定复现 Round 02-B 的“偏冷发红”、厚重中间调和强灯塑形；不因为使用同一 Visual Core 而视为通过。
- C：红色权重与强顶灯结构均丢失；与 A 一样出现自然侧光感，偏离参考画面的室内灯光性质。

重复性结论

Round 03 的技术证据成立：三次调用都从已归档 Markdown 读取 Prompt，三版 Visual Core 逐字相同，且为零图像输入的独立 text-to-image。但这只能证明“展示的 Prompt 与实际调用一致”，不能证明模型会稳定复现同一光色结果。

本轮因此是有效的失败证据：一次正确命中不等于 Prompt 已获得稳定复现性；当“去黄”、“局部柔化”和“人物锋利度”同时被强调时，模型可能将更重要的土红棕面色与强顶灯权重稀释。

收尾选择

- 主候选：Round 02 / B。它建立了最完整的冷青绿环境、土红棕人物、厚重宏观对比与选择性人物锋利度。
- 次候选：Round 02 / C。它在首次评价中曾被指出对比和锋利度弱于 B，但 Janet 在阶段收尾回看时明确确认“上一版的 B 和 C 都不错”，因此作为可保留的补充候选。
- Round 02-A 与 Round 03 A/B/C 均作为反证保留，不进入最终候选。

详细收尾记录见 final-feedback.md。

本轮最终判定

JW-LTBF-03 / Round 03 | 最终肉眼反馈

记录日期：2026-07-20 (Asia/Taipei)

状态：Round 03 A/B/C 全部未通过 / JW-LTBF-03 阶段收尾 / 冻结候选。

Janet 原话

不好了，这次三个都不对了，那个红色丢了，光也明显不足，参考图里的光是顶光强光，灯光，A 和 C 很像自然光从侧面打在 person 上。上一版的 B 和 C 都不错其实，这个可以收尾了。

阶段判定

1. Round 03 A/B/C 都没有稳定复现 Round 02-B 曾经成立的冷而发红、土红棕妆面、厚重对比和人物锋利度。
2. 三张共同问题是人物红色权重丢失，强顶灯 / 高位室内灯光不足。
3. A 和 C 还把灯光性质误读为自然侧光，破坏了原分析中“暖强顶灯塑形 + 冷青绿环境制衡”的核心关系。
4. Round 03 不再继续追图或修补；它作为“同 Prompt 视觉重复性不足”的完整失败样本保留。

最终候选

主候选 | Round 02 B

保留理由：偏冷发红的色彩关系、冷青绿环境、土红棕人物、firm black point、厚重中间调与人物关键轮廓锋利度最为完整。

次候选 | Round 02 C

保留理由：首次评价中对比与人物锋利度弱于 B，但阶段收尾回看获 Janet 明确肯定，可作为同一方法下较柔的补充样本。

状态边界

- 本测试已完成阶段收尾，不继续生成新图。
- 当前状态写为“冻结候选”；Janet 没有下达“正式冻结 JW-LTBF-03”的明确指令，因此不写成已正式冻结。
- 候选图仅保留视觉规律；不继承演员身份、原片像素、角色真实姓名或可识别原构图。

本轮 QA

JW-LTBF-03 / Round 03 | QA

状态：生成证据已核验 / 视觉稳定性验收失败。

- [x] A/B/C 均为独立 text-to-image。
- [x] 三张图均为零图像输入。
- [x] 实际调用正文直接读取三份 Markdown，不存在另写隐藏 Prompt。
- [x] A/B/C 的 Visual Core 逐字相同；按实际调用去除首尾空白后，SHA-256 为 25116ce62d7c2cd6236990e843d8aa72d834917f9b10bffd8ffbf42b8709f92。
- [x] 三张 canonical 文件的像素尺寸与 SHA-256 已记录。
- [x] 三张 SHA-256 不相同。
- [x] B 无具体电影名、导演名、演员名或角色真实姓名。
- [x] C 人物、地点与叙事为原创转译。
- [x] Round 01 / Round 02 文件未被覆盖。
- [] 偏冷发红稳定复现：未通过，三图人物红色权重丢失。
- [] 强顶灯 / 高位室内灯光稳定复现：未通过，A/C 还被误执行为自然侧光。
- [] 厚重对比、人物锋利度与整体重复性：未通过，无一版完整达到 Round 02-B 基线。
- [x] 失败证据已保留；不删图、不修图、不把技术 hash 一致写成视觉通过。

本轮生成记录

JW-LTBF-03 / Round 03 | generation-log

状态：A/B/C 独立生成完成 / 待 Janet 肉眼评价。

- 生成方式：built-in imagegen / text-to-image
- 图像输入：0
- 正式母图输入：否
- Round 02-B 图片输入：否
- A/B/C：三份 Prompt，三次独立生成
- 生成日期：2026-07-20
- 模型、seed、request id：工具未公开
- 实际调用正文：运行时直接读取三份 Markdown 的 ## Prompt 后文本
- Visual Core：三版逐字相同
- Visual Core SHA-256：
25116ce62d7c2cd6236990e843d8aa72d834917f9b10bff8ffbff42b8709f92（与实际调用一致，去除首尾空白后计算）

Prompt 正文 SHA-256

版本	SHA-256
A	d52c6d07d19464d3f43056b12cbe0e40faabe1ef25f91242a02f03856ed4c6ee
B	1f8f23276dd8986f65c92b30d8917bdc8fee0ba22eb50cad8d9b5e1d137a4114
C	6fc57ed800cda4395e20c0021a124698a623fd9cc7d06c3aac463ddd22db71ad

Canonical 图片

版本	文件	像素尺寸	SHA-256
A	JW-LTBF-03_A_r03.png	1919 × 820	5d6c9634ff0381aa2ae80d67655bbfd709aba8d58179c889517188e37d0c7476
B	JW-LTBF-03_B_r03.png	1922 × 818	217d37c64b8e7338a9fc71e502b48bb13f5a3133efdd6266868dd150083720c1
C	JW-LTBF-03_C_r03.png	1919 × 820	326b441f73474d19e5f4e7899fd91d7645280ec0bb14d51f9052c4393e787869

三张 SHA-256 均不相同。工具输出原样复制为 canonical 文件；归档后没有二次调色、修图或重编码。

7 | 完整会话记录

JW-LTBF-03 / S0-03 | 可见会话记录

2026-07-17 | 预备指令

Janet 要求把镜场计划网站改为可扩展的实验文档阅读器，并在设计完成后准备第 03 实验轮。

执行边界：本次只准备目录、文档模板与网站入口；没有收到正式母图确认，没有开始画面分析、Prompt 编写或图片生成。

2026-07-17 | 正式启动 Round 01

Janet 要求开始准备 JW-LTBF-03 / S0-03 红绿室内单人近景校准的第一组 Prompt，并明确吸取 01、02 的教训。

本轮完成：正式母图与 5 秒片段来源链核验、source-record、analysis-notes，以及 Round 01 A/B/C 三份 Prompt。三份 Prompt 均要求零图像输入、独立原创人脸、背景叙事不删空、红绿只属于实体空间、肤色保持 red-bearing 中间调、景深以可见结果验收。

当前停止在生成前：0 张测试图，尚无 Janet 肉眼评价。

2026-07-17 | Round 01 首轮生成

Janet 要求按已经建立的第一组 A/B/C Prompt 产出三张图片供肉眼核对。

执行结果：A、B、C 均通过独立 built-in image generation 完成，输入只有各自 Prompt 正文，未传母图、候选帧、旧输出或其他图像。三张 canonical 图片已保存为 round-01/JW-LTBF-03_A_r01.png、JW-LTBF-03_B_r01.png、JW-LTBF-03_C_r01.png。

审计记录：正式 A 之前出现一次内部语境被调用层泛化的预检输出，因未与已存档 A 正文完全对应，不计入 A/B/C，也不用于评价；该图以 preflight/JW-LTBF-03_A_preflight_noncanonical.png 保留证据。当前停止等待 Janet 反馈，不提前修改 Prompt 或填写结论。

2026-07-17 | Janet Round 01 肉眼反馈

Janet 判断三张图整体不够冷，背景冷青绿没有形成对人物的环境制衡；人物也缺少原图厚重、发土红的装造肤色。原图为偏高位暖光，正脸存在大面积暗部与红棕反光；整体调色宏观对比高，但人脸经过柔化，人物肤色仍红润、艳而不灰。Janet 同时指出：Prompt 不是越长越好，必须把真正有效的风格关系写精。

复核结果支持该判断。像素测量显示 A/B/C 全图红色反而多于原图，真正缺失的是人物面部红轴和右侧低明度 cyan-green；Round 01 的全局偏暖、cyan 仅限最深暗部、均匀前侧暖光与 pores / no beauty retouching 等语言直接促成了偏差。01 / 02 只分散写过部分规律，没有建立这一整套公式。完整审计见 round-01/color-lighting-face-audit.md。

2026-07-18 | Round 02 Prompt 与三图生成

Janet 要求下一轮 Prompt 与 A/B/C 图片同步产出。Round 02 继承首轮构图、姿态、浅色高领服装、红 / 木 / 青绿三段空间和景深结构，只修改五项问题变量：右侧冷青绿环境、面部土红棕妆面、高位暖顶光与脸内暗部、低皮肤微反差、人物全套画外方向朝画面右侧。

A、B、C 三份 Prompt 先全部写完，再分别执行三次 built-in text-to-image。三次调用均为零图像输入，没有传正式母图、Round 01 图片或其他参考图，也没有二次调色、修图或重编码。三张 canonical 图片与 SHA-256 已归档到 round-02/；当前停止等待 Janet 肉眼评价，不提前判定通过、失败或冻结。

2026-07-20 | Janet Round 02 反馈与 Round 03 重复性验证

Janet 判断 Round 02-B 的色彩基本正确：画面偏冷发红，人物的土红棕质感、厚重对比与锋利度达到当前最佳平衡。A 过黄，不是目标冷调；C 宏观对比偏弱，人物锋利度不足。Janet 要求继续使用 B 的提示词逻辑再做一组 A/B/C，以确认文字控制真实、可重复，并进一步优化 Prompt。

Round 03 删除会累积成全局黄调的 warm-greige / cream-peach 组合，把衣服改为 cool neutral stone-greige；把柔化限定在毛孔、细纹和最亮高光 bloom，不允许软化眼睛、脸部轮廓、胡须、唇线和领口；同时明确 firm black point、强中间调分离与人物最高自然锐度。A/B/C 共用逐字相同的 Visual Core，仅替换 Internal / Descriptive / Safe 语境外壳。

三次生成均由程序直接读取对应 Markdown 的 ## Prompt 正文、去除首尾空白后调用 built-in imagegen，零图像输入。以相同规范计算的 Visual Core SHA-256 为 25116ce62d7c2cd6236990e843d8aa72d834917f9b10bffd8ffbff42b8709f92，三张 canonical 图片与各自 SHA-256 已归档在 round-03/。当前停止等待 Janet 核对重复性。

2026-07-20 | Round 03 最终评价与阶段收尾

Janet

不好了，这次三个都不对了，那个红色丢了，光也明显不足，参考图里的光是顶光强光，灯光，A 和 C 很像自然光从侧面打在 person 上，上一版的 B 和 C 都不错其实，这个可以收尾了，把总结一定写漂亮了。还是和 02 一样的套路，给我收好看了，然后直接送进我的站里，紧接着把 04 准备一下。

归档判定

- Round 03 A/B/C 全部未通过：人物红色权重丢失，强顶灯 / 室内灯光不足，A/C 出现自然侧光感。
- Round 03 的相同 Visual Core hash 继续作为真实调用证据，但不再被误写为视觉稳定性证据。
- 候选回退至 Round 02：B 为主候选，C 为补充候选。
- JW-LTBF-03 停止继续生成，进入“阶段收尾 / 冻结候选”。Janet 未明确下达“正式冻结”指令，因此档案不写已正式冻结。

8 | 测试规则与复核标准

测试计划

JW-LTBF-03 / S0-03 | test-plan

状态：三轮测试已完成 / 阶段收尾 / 冻结候选。

实验目标

以同一组空间、人物姿态、光线、色彩分区和可见景深建立 A/B/C 基线，并验证“冷青绿环境 + 土红棕人物 + 强暖顶灯 + 厚重宏观对比 + 低面部微反差”能否被稳定转译。目标是建立可继承的视觉规律，不是生成最终片。

正式流程

原片来源核验

→ 画面分析

→ 第一轮 A/B/C Prompt 同时完成

→ A/B/C 三张图同轮生成

→ Janet 肉眼评价

→ 只修改有问题的变量

→ 进入下一轮

→ 达到冻结标准后收尾

第一轮观察项

5. 人物身份与原创断链是否成立。
6. 空间层级与背景叙事是否成立。
7. 浅色服装的颜色、材质与高光是否成立。
8. 室内光方向与光比是否成立。
9. 红色、绿色、肤色与中性区域是否各在正确位置。
10. 景深是否通过可见结果表达主体关系。
11. 是否出现重复小物、高频纹理、脏点、塑料皮肤或其他 AI 味。

锁定纪律

- A：内部原片研究版，可使用原片语境，但不得通过 edit / recolor 冒充生成。
- B：描述性复刻版，不出现片名、导演名、演员名或角色真实姓名。
- C：安全转译版，人物、场景与叙事必须原创，只保留视觉规律。
- 三版先全部写完，再一次生成三张。
- Janet 反馈后只修改问题变量，不推翻已经成立的部分。

经验锁定

- 正式母图与 5 秒片段来源链。
- 单人胸部以上中近景、坐姿后靠、向画外右侧谈判。
- 左深红 / 中央暖木 / 右墨绿与烛火的实体空间分区。
- 冷青绿属于环境暗场；人物土红棕属于妆面与皮肤基底，不用全局加红替代。
- 主光必须读为强高位室内灯光 / 顶前方暖灯，不能被自然侧窗光取代。
- 人物需要高宏观对比与低皮肤微反差：保留骨相、体积、主要皱纹与表情，只压制毛孔和细碎纹理。
- 主体 / 椅背 / 后墙与烛火的三层可见失焦结果。
- A/B/C 只改变语境转译层级，不同时做色彩或景深强度 bracket。

三轮执行结果

- 正式母图确认：已完成。
- source-record：已核，未知项明确标待核。
- analysis-notes：已完成。
- Round 01 Prompt：A/B/C 已同时完成。
- Round 01 图片：A/B/C 三张独立生成已完成并归档。
- Round 01 反馈：已收到；整体过暖、背景缺真青绿、脸部缺土红棕暗面与顶光结构，面部微纹理过强。
- Round 02 Prompt：A/B/C 已同时完成，只修改五项问题变量。
- Round 02 图片：A/B/C 三张独立 text-to-image 已完成并归档，零图像输入。

- Round 02 反馈：B 的偏冷发红、厚重对比与人物锋利度被选为新基线；A 偏黄，C 首评对比与锋利度弱于 B。Janet 在收尾回看中确认 B/C 都不错。
- Round 03 Prompt：三版共用逐字相同的优化 Visual Core，只改变语境外壳；核心 hash 已核。
- Round 03 图片：A/B/C 三张独立 text-to-image 已完成并归档，零图像输入。
- Round 03 反馈：三图全部未通过；人物红色权重丢失，强顶灯明显不足，A/C 被误执行为自然侧光。

收尾判定

- 主候选：Round 02 B。
- 次候选：Round 02 C。
- 反证：Round 01 全轮、Round 02 A、Round 03 全轮及 non-canonical 预检图。
- 本测试停止继续生成；失败证据全部保留。
- 状态只写“冻结候选”。未收到“正式冻结 JW-LTBF-03”的明确指令，不写已正式冻结。

复核标准

JW-LTBF-03 / S0-03 | review-score

状态：Round 01–03 肉眼反馈已归档 / 阶段收尾 / 冻结候选。

观察项	A	B	C	Janet 反馈
人物身份 / 原创性	未单独否定	未单独否定	未单独否定	本轮重点不是身份；下一轮继续锁原创脸
空间与背景叙事	三段大形成立	三段大形成立	背景细节过抢	冷青绿色场均不足，红背景均过纯
浅色服装	偏香槟暖	偏香槟暖	纹理过锐	保持浅色，但回到 dusty warm greige

观察项	A	B	C	Janet 反馈
室内光	正面填充过平	顶光不足	顶光不足	原图为偏高位暖光，脸内有大面积暗部
色彩分区	脸最接近但仍不足	脸红轴不足	脸红轴不足	红不缺，分配错误；背景缺真正 cyan-green
景深关系	当前最佳基础	可用	背景过实	下一轮继承 A 的景深，不扩大锐度
材质与 AI 味	偏数字人像	毛孔偏强	皮肤 / 衣料 / 背景过锐	高宏观对比、低面部微反差，不做塑料磨皮

本轮不补造数值分数。Janet 的核心判断及像素核对已写入 round-01/color-lighting-face-audit.md。

Round 02

观察项	A	B	C	Janet 反馈
人物身份 / 原创性	未否定	未否定	未否定	本轮重点为色彩与质感
空间与背景叙事	可用	可用	可用	未提出背景叙事否定；B/C 都进入收尾候选
浅色服装	被暖光染黄	冷中性灰褐成立	偏软	B 最符合目标关系
室内光	暖色覆盖过强	冷环境与局部暖光平衡	脸部结构偏平	B 最接近
色彩分区	过黄，不是目标冷调	偏冷发红，基本正确	色彩改善，首评对比偏弱	B 为主候选；C 在收尾回看中获肯定
景深关系	未单独否定	未单独否定	未单独否定	继续沿用 B
材质与 AI 味	人物偏黄	土红棕、厚重、锋利度刚好	首评人物锋利度弱于 B	B 有“土邦子感觉”；C 作较柔补充样本

Round 02 的评价需按时间顺序理解：首次评价只选 B 作为 Round 03 基线；Round 03 失败后，Janet 明确补充“上一版的 B 和 C 都不错”。因此 B 为主候选，C 为次候选，不删除 C 初评较弱的历史记录。

Round 03

观察项	A	B	C	Janet 反馈
偏冷发红是否重复	未通过	未通过	未通过	三版都丢失人物红色权重
土红棕人物是否重复	未通过	未通过	未通过	无一版稳定复现 Round 02-B 的妆面与厚重色调
强顶灯 / 室内灯光	未通过，偏自然侧光	未通过，强灯不足	未通过，偏自然侧光	参考关系是高位强灯，不是柔和窗边侧光
厚重对比 / black point	不完整复现	不完整复现	不完整复现	红色与强光结构丢失后，厚重感也不成立
人物自然锋利度	不构成通过	不构成通过	不构成通过	即使局部边缘清楚，也不能抵消核心光色失败
Prompt 调用诚信	通过	通过	通过	三版实际调用 Visual Core 逐字相同，零图像输入
视觉重复性	未通过	未通过	未通过	同核 hash 不等于可视结果稳定

阶段结论

- 主候选：Round 02 B。
- 次候选：Round 02 C。
- Round 03：全部未通过，但实验有效，因为它证明了 Prompt 真实调用与视觉可重复性是两个不同的验收层。
- 当前只写“冻结候选”，不写已正式冻结。
- 不用虚构数值总分替代 Janet 的定性肉眼判断。

9 | 资产与 SHA-256 索引

JW-LTBF-03 / S0-03 | 资产与 SHA-256 索引

状态：阶段收尾 / 冻结候选。

校验方法：SHA-256。本索引只登记来源证据、canonical Prompt、canonical 图片和 non-canonical 预检图；macOS AppleDouble ._ * 不属于内容资产。

4. Non-canonical 技术留证 | 1

文件	像素尺寸	SHA-256	边界
round-01/preflight/JW-LTBF-03_A_preflight_noncanonical.png	1923 × 817	c2e2a4b98892dcd9b95cc298c2b9b4757096c2a0b89f4ba240256bf8a6d7440a	正式 A 之前的调用层预检；与已归档 A Prompt 正文不完全对应，不计入 A/B/C，不用于肉眼评价

5. 计数与边界

- 正式轮次：3。
- Canonical Prompt：9。

- Canonical 图片：9。
- Rejected 额外 Prompt / 图片分支：0。
- Non-canonical 预检图：1。
- 最终候选：Round 02 B/C，两张都已包含在 9 张 canonical 图片中，不重复计数。
- Round 03 Visual Core SHA-256：
25116ce62d7c2cd6236990e843d8aa72d834917f9b10bfd8ffbff42b8709f92。该 hash 证明三版实际调用的 Visual Core 一致，不代表三张图的视觉结果通过。

Prompt 和图片的 hash 用于证明归档完整性，不代表审美评分、版权授权或模型可重复性。

10 | 阶段收尾

JW-LTBF-03 收尾结论

保留：Round 02-B（主候选）与 Round 02-C（辅助候选）。

拒绝：Round 03 A/B/C；拒绝原因不是“色彩不够漂亮”，而是人物土红轴与人工顶灯这两个核心叙事变量同时丢失。

进入 JW-LTBF-04 时继承四个硬锁：环境冷青灰、人物土红棕、人工或窗源的光线性质必须写清、背景必须继续承担人物关系与空间叙事。

本档案完整保留对话、Prompt、图片和失败链，供后续数百次实验横向比较。
